RE: Amendment to Community Center Act 199 of 1929
Director Compensation

The Negaunee Township Board fully supports legislation to amend the Michigan Community Center Act 199 of 1929 to allow for Directors serving on the Community Center Board to be compensated for their service.

Currently Board members must serve without compensation. By allowing the possibility of a compensation rate to be set by Resolution similar to those received by other local Committees, municipal Boards will have the ability to recruit the most qualified and talented individuals – along with encouraging active participation by individuals within the local community.

Thank you for your consideration.

Sincerely,

NEGAUNEE TOWNSHIP BOARD
